

Rabiul Hasan

Backend Developer / Web Developer / Full-stack Developer / Software Developer

✉ rabiulh@web.de 📍 Ginnheimer Landstrasse 42, 60487 Frankfurt am Main

Profile

With a Bachelor's degree in Computer Science and Engineering, I bring **4 years of industry experience** as a dedicated Backend software developer. Proficient in **PHP, Javascript, Python and C/C++**, as well as **GraphQL**, my focus lies in crafting clean, elegant and efficient code

Employment

Backend PHP Developer

Aug 2023 - Present

publicplan GmbH, Düsseldorf

- Manage ongoing **maintenance** initiatives for **web applications**, ensuring uninterrupted functionality and optimal user experience
- Actively engage in all **phases of development and testing**, **collaborating** closely with multidisciplinary **teams** to achieve project milestones and deliverables
- Proficiently utilize **Jira Project** Management to streamline task allocation, **track project progress** and facilitate seamless communication across teams

Full-Stack Developer

Sep 2022 - Apr 2023

Kaptura GmbH, Bendorf

- Enhanced and extended both **frontend** and **backend** components to achieve continuous improvement and innovation in **application performance**
- Leveraged cloud platforms such as **AWS to optimize scalability, reliability** and **operational efficiency**, resulting in enhanced system performance and reduced downtime
- Managed **Scanner WebGL functionality** and maintained product **data scanning processes to ensure accuracy** and efficiency in data handling
- Expanded application capabilities by developing **Python extensions**, thereby **enhancing functionality** and providing additional integration options for enhanced user experience

Software Engineer

Mar 2019 - Mar 2022

IGL Web Ltd., Dhaka, Bangladesh

- Designed and implemented **backend API and frontend client applications** to meet project requirements and enhance user experience
- Proficient in utilizing the **PHP-based Laravel framework to develop robust** and scalable solutions
- Contributed to module development for extensive **SMS and mobile recharge** systems, seamlessly integrated with Telecom Brands API
- Experienced in version control using **Git and GitHub repositories** for efficient collaboration and code management

Personal details

Date of birth
