Maximilian Wetzel

has successfully completed the online, non-credit Professional Certificate

Google IT Support

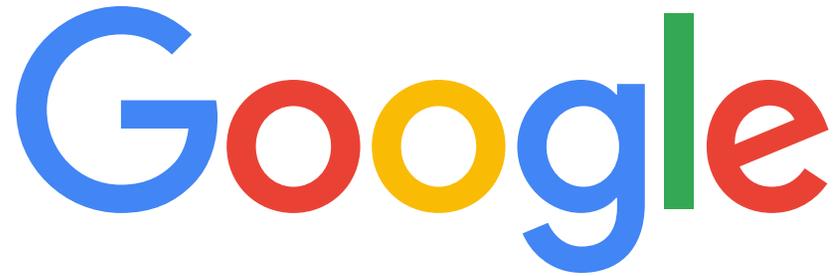

Those who earn the Google IT Support Professional Certificate have completed five-courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in IT support. They are competent in foundational skills, including troubleshooting and customer service, networking, operating systems, system administration, and security.

5 Courses

**Programming for Everybody
(Getting Started with
Python)**

Python Data Structures

**Using Python to Access Web
Data**

**Using Databases with
Python**

**Capstone: Retrieving,
Processing, and Visualizing
Data with Python**

Dec 5, 2024

Maximilian Erich Wolfgang Wetzel

has successfully completed the online, non-credit Specialization

Python for Everybody

This Specialization builds on the success of the Python for Everybody course and will introduce fundamental programming concepts including data structures, networked application program interfaces, and databases, using the Python programming language. In the Capstone Project, you'll use the technologies learned throughout the Specialization to design and create your own applications for data retrieval, processing, and visualization.

For the successful completion of the CareerFoundry course

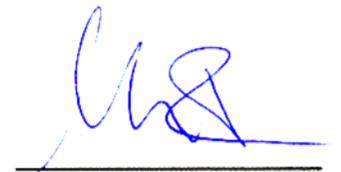

Intro to UX Design

CareerFoundry proudly awards this certificate to

Maximilian Wetzel

Date of completion

Jun 26th, 2020

Martin Ramsin

Managing Director

The student has covered the following skills in the course

- UX Theory
- Principles of Design Thinking
- User and Competitor Research
- Persona Creation
- Principles of Information Architecture
- Wireframing and Prototyping Basics
- Usability Testing
- Design Presentations

For the successful completion of the CareerFoundry course

UX Immersion

CareerFoundry proudly awards this certificate to

Maximilian Wetzel

Date of completion

Mar 20th, 2021

The student has covered the following skills in the course

- User-Centered Design
- Emotional and Visual Design
- Competitive Analysis
- Generative and Evaluative Research
- User Personas and Business Requirements
- Mobile-First and Responsive Design
- Information Architecture and User Flows
- Iterative Wireframing and Prototyping
- Usability and Preference Testing
- Design Documentation and Presentation
