Sub: Covering letter for Full time job in Software Developer ()

Dear Sir/Madam,

I am Sriram Hanumantha Rao and I worked as a Software developer in Germany, I am interested in applying for a position in Software developer at Intarsys GmbH .

The master's degree that I did has laid in me a strong foundation in Software Engineering and Management through subjects like Programming, Data Structures and Algorithms, Databases, System Design, Middleware Technology and Software Project Management. The professional experience that I have acquired helped me in developing a sound knowledge of Object-oriented programming languages like J2EE, Java and others.

During the last few years of my working experience, I have worked with the following technologies. Java programming, JEE, Working with Docker, Helm Files, Multi-threading and Synchronization, C#, Spring and Spring Boot Framework, Hibernate, JPA, MVC Based applications, GWT, Cloud computing, Continuous Integration, Software design patterns such as MVC , Object oriented Analysis and Design, Software Testing, Software Project Management, Jira, Confluence. I also worked with HTML5, XML, JSON, SVN, git, Maven, JUnit, Databases like MySQL and Oracle, Application servers such as Apache Tomcat, WebSphere. IDEs such as Eclipse, IDEA. I have relative professional experience in a few of these fields as stated in my CV and I am interested in taking up challenging topics that would benefit me and the organization. I would also like to expand my interests by encompassing projects of various technologies. I have a good knowledge of operating systems such as UNIX, Linux, Windows, Working with Directories and Mac. I do possess good analytical and structured thinking and work as per the company expectations. I have a reasonable knowledge of MS office package. With the qualifications and motivation that I bring along I could be an ideal candidate and an asset to the organization.

I herewith enclosed my CV for your reference. I am looking forward to discussing with you and having interview talks for my full-time employment. I would be available to start my job from January 2025 onwards.

Yours Sincerely,

Sriram Hanumantha Rao
