

I am a tag-test document.

I will inject tags, especially arguments into the document.

@@signhere=-----@@

@@args.documentSigner.args.field.create=true@@

@@args.documentSigner.args.field.position=\${tags.meta.signhere.llx}x\${tags.meta.signhere.lly}@@

@@args.documentSigner.args.field.size=\${tags.meta.signhere.width}x50@@

@@args.documentSigner.args.field.pageRange=\${tags.meta.signhere.page}@@

@@args.documentSigner.args.decorator.args.text="it's so pretty\nall so pretty..."@@
